Just so you know, Cliff has email with Rick Thompson our Solid Waste lead, so I think we being diligent in helping this communication occur. Relatively quickly I think. Oh, sorry, I thought the letter was good. Lisa is in Libby so if you could get her head nod also that would be good.

Thanks Mike, I appreciate your efforts on keeping us in the loop.

On another note, is there any local rumble about SB-315 and who the candidates might be for Lincoln county?

Hi Tom,

I made it clear with them yesterday that they needed to do that. They are going to try to make contact and may call Lisa as well as they feel she is there "liaison" for DEQ. They did mention that it is Calbags workplan, and wanted to make sure Cliff is engaged as well.

Did you see I mentioned that in the last line of my letter response? Did you have any comments to my letter? I want to get that out today if possible.

Mike

Mike,

If you have communications with Roux/Calbag/Glencore, they need to engage DEQ on the solid waste management issues around the concrete rubble generated by demolition. What can I do to help make that happen?
